DETAILED ACTION

This office action was made in response to an amendment filed by Applicant on 1/30/2009.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,4,7-9,11,15,17,18,21,22,23, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Feldman (6,435,554). Feldman discloses a knee airbag device comprising an airbag 30; an inflator 40; a non-inflatable airbag support 24,50 that is attached to the airbag 30 and that comprises an instrument panel side portion, an occupant side portion, and a tether portion 50 attached to the airbag 30 and expands upon deployment of the airbag so as to cover the instrument panel, wherein the tether portion acts as a guide for the support portion, including the area 59 where the tether portion 50 is stitched to the airbag 30; and an airbag cover 22 that is attached to and thereby integrally formed with the airbag support 24. The support, including the cover 22, includes a bottom portion (seen at the far right in Fig. 2), and a top portion (Fig. 2 far left) wherein the top portion has a peripheral length greater than a peripheral length of the bottom portion (as seen in Fig. 2). With regard to claim 7, the instrument panel side portion of the support includes tether portion 50 and thus expands before the occupant

side portion. With regard to claim 17, because the support includes cover portion 22, the support may be considered to be separately wrapped and stored.

Allowable Subject Matter

3. Claims 3,6-8,10,16,19,20, and 24-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 1-11 and 16-28 have been considered but are moot in view of the new ground(s) of rejection.
